PROFILE

Computer Science Engineering graduate from PACE Institute of Technology and Sciences with academic mobility experience in Artificial Intelligence and Cybersecurity at Universiti Teknikal Malaysia Melaka (UTeM), Malaysia. Skilled in Python, web development, cybersecurity, data analysis, and machine learning through academic coursework and projects. Passionate about learning, solving problems, and contributing effectively in a professional environment.

EDUCATION

PACE Institute of Technology and Sciences	2022 – 2026
Bachelor of Technology in Computer Science and Engineering	
CGPA: 8.06/10	
International Mobility Programme – Universiti Teknikal Malaysia Melaka (UTeM), Malaysia	2025
Research Thesis: Malware Classification Using Convolutional Neural Networks	

SKILL SET

Programming: Python

Web Development: HTML, CSS, JavaScript

Databases: SQL, MySQL

Technologies: Machine Learning, Data Analysis, Data Visualization, Dashboard Development, Data Validation

Software Development: Software Development Life Cycle (SDLC)

Cybersecurity: Network Security, TCP/IP, OSI Model, DNS, HTTP/HTTPS, SSH, Kali Linux, Malware Analysis, VAPT, SIEM, Incident Response

Tools: Git, GitHub, Visual Studio Code, Google Colab, Tableau, Microsoft Word, Microsoft PowerPoint, Microsoft Excel, Wireshark, Nmap, Burp Suite

Professional Skills: Communication, Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Attention to Detail, Continuous Learning

PROJECTS

Malware Classification Using CNN	<i>Universiti Teknikal Malaysia Melaka (UTeM), Malaysia</i>
<i>Research Intern</i>	

- Developed a Convolutional Neural Network (CNN)-based malware classification framework using Python, TensorFlow, and deep learning techniques to automate malware family identification and cyber security threat analysis.
- Leveraged the Malimg and Microsoft BIG2015 benchmark datasets to train and validate the model, improving classification accuracy and enhancing generalization across multiple malware families.
- Performed comprehensive data preprocessing, including grayscale image conversion, normalization, re-sizing, and feature extraction, to optimize malware representation for model training.
- Implemented transfer learning, image augmentation, and hyperparameter optimization techniques to improve detection performance, reduce false positives, and enhance model robustness.
- Designed and deployed an interactive Gradio-based web interface for real-time malware prediction, visualization, and user-friendly malware family analysis.
- Evaluated model effectiveness using Accuracy, Precision, Recall, F1-Score, and Confusion Matrix metrics to ensure reliable, scalable, and consistent classification performance.

Sales Performance Analytics Dashboard

42 Learn

Data Analytics Intern

- Designed and developed an interactive Tableau dashboard to monitor key sales performance indicators, customer behavior, and business performance across multiple regions.
- Cleaned, transformed, and validated raw sales datasets using Python and Excel to improve data quality, reporting accuracy, and analytical consistency.
- Built dynamic visualizations to analyze sales trends, profit margins, regional performance, and customer purchasing behavior, enabling data-driven business insights.
- Identified high-performing categories, seasonal demand patterns, and underperforming regions to support strategic planning and operational decision-making.
- Automated reporting workflows and dashboard updates, reducing manual effort and improving the efficiency of business intelligence reporting processes.

ACHIEVEMENTS

- Winner – MAGNET 2025 Heritage Trail (Malaysia)
- Winner – IEEE Technical Quiz Competition
- Winner – AI Generation and AI Tools Competitions
- Shortlisted – Smart India Hackathon (SIH) 2024, College Level
- Team Lead – Google Student Club Initiatives focused on Drone Technology and Computer Vision

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AI-900) – Microsoft
- Deloitte Australia Cyber security Job Simulation – Forage
- Data Science – AI/ML Modeling & BigQuery using Python and Tableau – 42 Learn
- Salesforce Certified Agent force Specialist – Salesforce
- Fortinet Network Security Associate (FNSA) – Fortinet
- Zscaler Networking Fundamentals – Zscaler
